### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 23 January 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 51 and 72-77, drawn to invention 1, classified in class 705, subclass 5.
- II. Claims 1-6,8-18 and 20-23, 52-71 and 78-82, drawn to invention 2, classified in class 705, subclass 5.

The inventions are distinct, each from the other because of the following reasons:

Inventions 1 and 2 are related as products which share an alleged common utility of renting vehicles but the common utility is not linked to a substantial structural feature. The products in this relationship are distinct if either or both of the following can be shown: (1) that the products encompass embodiments that are not required to perform the common utility or (2) that the products as claimed can be used to perform another utility. In this case, invention 1 is directed toward the automation of generically renting vehicles, invention 2 is directed toward renting vehicles and coordinating with a repair facility.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 3629

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Note: While the following rejection is not being made, in the interests of compact prosecution, the examiner would like to draw the applicant's attention to potential rejections of the claims that would appear to be merely typographic errors and not intended.

Claims 1-6,8-18 and 20-23 would be rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said another's vehicle" in lines 11-12. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-6,8-18 and 20-23 would be rejected as depending from a rejected claim.

Further as to claim 8, claim 8 recites the limitation "... of claim 7..." in line 1. There is insufficient antecedent basis for this limitation in the claim. As the dependency of this claim is unclear, it would not be examined on the merits nor would claims 9-18, which are dependent on claim 8.

Further as to claim 20, claim 20 recites the limitation "... of claim 19..." in line 1. There is insufficient antecedent basis for this limitation in the claim. As the dependency of this claim is unclear, it would not be examined on the merits nor would claims 21-23, which are dependent on claim 20.

Note: For restriction purposes, it will be assumed that claims 8 and 20 are meant to ultimately be dependent on claim 1 and as such, have been included in invention 1.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Fisher whose telephone number is 571-272-6804. The examiner can normally be reached on Mon.-Fri. 7:30am-5:00pm alt Fri. off.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
